Examiner's Statement of Reasons for Allowance

Claims 1-10, 12-22, 30-50, 53-59, 61-72, 75-78, 80-83, 85-88, and 95-97 are allowed.

The following is an examiner's statement of reasons for allowance:

Applicant's invention is drawn to a method and device for displaying related short messages (SMS) messages using threads. Applicants discovered a more efficient procedure to display incoming and outgoing SMS messages associated with a particular contact. Specifically, a particular set of rules for incoming SMS messages and another set of rules for outgoing SMS messages are applied to a contact that includes two different telephone numbers in order to display a SMS message thread representing a relationship between the SMS messages.

Applicant's independent claims 1, 30, 53, and 85 each recite, *inter alia*, the set of incoming SMS message rules associating an incoming SMS message from a second telephone number with the SMS message thread which includes one or more SMS messages from a contact associated with the first telephone number and with the second telephone number. Applicant's independent claims 1, 30, 53, and 85 comprise a particular combination of elements, which is neither taught nor suggested by the prior art. The prior art, such as Rukman, Walsh, Beck, White, and O'Connor teach a variety of rules that are applied to incoming and outgoing text messages, however, the cited references do not condense two telephone numbers associated with one contact into one related thread. Rukman teaches threading messages based on a pseudo telephone number that has previous messages associated with it (paragraphs 42 and 45). O'Connor teaches threading messages based on a thread ID (paragraphs 143 and 144). Other methods include threading messages by the title/subject of the message. However, after a thorough search in the art, the prior art of record fails to teach the set of incoming SMS message

Art Unit: 2617

rules associating an incoming SMS message from a second telephone number with the SMS message thread which includes one or more SMS messages from a contact associated with the first telephone number and with the second telephone number.

Accordingly, applicant's invention is allowed for these reasons and the reasons recited by applicant in the amendments, arguments, the interview, and pre-appeal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
